

Ark of the Covenant Found: Dream

by David Michael, info@glentivar.org

Hidden Artifacts

In a dream of the night on March 14, 2014, I found myself at the foot of a great mountain. The land was forested but lacking large amounts of water. I thought in the dream it was near Mt Nebo or Mt Magazine in Arkansas but the dryness of the area suggested elsewhere. This may have been a dream for sometime in the future when the land was more dry than it is now in the Mt Nebo and Mt magazine area. I have yet to have a clear sense of exact location.

As I looked up to the South at the base of this mountain, I saw a gully up the mountain with small scattered pools of water. It seemed that this gully was once a strong stream but now only captured water in pools when it rained. The sides of the gully were rather steep but not cliffs with trees growing up the banks as far as the eyes could see. The pine looking trees were naturally spaced about 8 – 20 feet apart which suggests a dryer type of climate.

Trail of 1000 Years

As I was looking up the gully, I heard the voice of an angel that said, “**The trail of 1000 years.**” I never saw the angel but I intuitively knew I had to walk this trail back 1000 years to discover what needed to be known about the Holy people of YHWH once living in this area.

While still in the present, I then saw a man in uniform standing among the trees who I understood to be a General connected to the dark forces of the US Government. He was looking at me and appeared to be agitated and resistant to my being there and certainly did not want me to pursue any search up the gully.

I knew the General wanted to get the artifacts himself but I sensed he could not find them since he was not appointed by YHWH to do so. I understood the artifacts to be related to the Ark of the Covenant brought to the new world for safety. It was now hidden and protected by angels. This was to the Generals much frustration.

1000 Years in the Past

I then found myself 1000 years earlier with the general gone from the dream. I was in the same place looking up the gully and saw the original large stream and a waterfall. This would place me back into the year 1014 during the rule of the Romanized 5th Kingdom of Calalus in America of Hebrew origin.

As I looked up the gully at the waterfall, I started walking up the gully and saw a waterfall about 20' tall cascading down over the rocks. I was drawn by the Spirit to the area behind this waterfall where a cave was located and the resting place of very important Hebrew artifacts – perhaps even the lost Ark of the Covenant. I was then able to see through the water and the covering rocks into a cave underneath the water fall that protected the artifacts with the waterfall helping discourage discovery and access. I saw what I thought to be the Ark of the Covenant that was the original one made by Moses.

Knights Protecting Ark

Still in the past, I then noticed other men around me. They were dressed in early medieval armor and appeared to be guarding the site from intruders. They were assigned to guard the the artifacts until the day these holy relics would be needed by Israel sometime in the distant future.

Why were these artifacts carried to and hid in America I wondered to myself? How did they get here from Israel? Some legends speak of the prophet Jeremiah taking the Ark and other artifacts from Jerusalem just before it was overrun by Babylon and taking them to Ireland in circa 500 BCE.

Other legends say from Ireland, they were taken by Jeremiah to a new Israel in America and this new Hebrew Kingdom was later called Avalon during the time of King Arthur (6th century) and Calalus during the time of Charlemagne (8th century). This dating in the dream would place the knights in the 6th Kingdom of Calalus circa 800-1100 AD with the kings related to the 1st kingdom circa 1000 BC existing during the time of Solomon.

Israelite Kingdoms in America

I began to understand there were many Hebrew kingdoms in America in this area of the Arkansas River spanning the last 3000 years. The first being the Kingdom of Solomon in circa 1000 BCE. The 2nd Kingdom occurred during the time of Jeremiah in 500 BCE with the 3rd about 140 CE. The 4th Kingdom occurred about 500 CE during the time of King Arthur of the Hebrew Celts with the 5th Kingdom occurring in 750-1100 CE as Calalus. The rise of the 6th Kingdom is soon to occur as the Kingdom of the Melkizedek with the final 7th kingdom occurring at the return of King Y'Shua during the 1000 year millinial reign of Christ.

Calalus Knights

Now I found myself standing among these knights who were in America 1000 years ago. I seemed to be counted among them as their brother in arms as we smiled and nodded to each other. The helmets and armor they wore were a mix of Spartan, Roman and Celtic armor. Mail was not worn but small scale armor was more commonly seen with larger plates over the chest and shoulders.

Destruction of Calalus

Upon awakening, I wondered at the importance of the 1000 years ago date. I did a search on the year 1014 in Google and discovered that during that year on September 28th, two massive fragments of an asteroid hit the Atlantic and the Gulf of Mexico seas. The impact caused massive tsunamis and the destruction of the coastal areas of the Atlantic and Gulf and up the Mississippi and the Arkansas rivers. A chain reaction from the impacts caused volcanic eruptions which destroyed Mayan cities in Central America. <http://peopleoffire.com>

One can only wonder if this was a judgment of YHWH or perhaps a war of the gods with the Kingdom of Calalus targeted for its allegiance to YHWH or perhaps becoming vulnerable due to its fallen state in embracing Roman doctrines and authorities. This event and date recorded in science coincides with the sudden disappearance of the Anasazi people of the 4 corners area of SW America which is at the source of the Arkansas River and its feeder rivers in about 1000 CE.

Rise of the 6th and 7th Kingdom

It would appear the 6th kingdom of Calalus is now being established (first in the

heavenlies) with the alliance of many Native Americans as led by the Melkizedek priesthood of the line of King David. Many tribes of Native Americans have Hebrew genetic origins and some among them are also called as Melkizedek priests for these end times.

I can only pray for a good foundation upon the true teaching of Y'Shua and the Holy Apostles in embracing the true faith of the Sabbath (Saturday) and the Holy Days of the annual cycle. This is a kingdom led by those of the bloodline of King David and who have been called by YHWH into the Melkizedek priesthood. Let's consider the 7 Hebrew Kingdoms in America in more detail.

First Kingdom: (Circa 1000 BC)

This is during the era of King David and Solomon. It is believed that gold and copper were mined in the Americas by Solomon and referred to in some texts as Solomon's Mines.

Second Kingdom: (circa 500 BC)

Established by Jeremiah or his servants in escaping the rule of Babylon in Israel. Jeremiah brought with him Temple artifacts (perhaps the Ark) and the Stone of Destiny to Ireland. Some researches believe the ark was then carried to the New World as the New Jerusalem by Jeremiah during his life.

Third Kingdom: (circa 140 AD)

This 3rd revival that became known as the Kingdom of David was reestablished by the family of Y'Shua and Joseph of Arimathea. This was under the domain of a Hebrew-Christian kingdom that ruled in Britannia called the Culdee by the seed of King David that spilled over into the New World.

The location of Solomon's mines were known to the house of David and they would have opted to continue with mining in the new world in the new millennium. Joseph was known to be a miner of tin in Britain and to also mine other metals in the new world such as copper and gold is reasonable.

Forth Kingdom (circa 500 CE):

Again Calalus was reestablished then called Avalon by the the Knights of King Arthur. King Arthur was wounded in battle in circa 540 CE about the time asteroid fragments impacted earth causing a short term ice age destroying crops and cities around the world.

This Kingdom ruled over the lands of the Olmecs according to historic records as protected by the Swan Knights of King Arthur. At this time, this Kingdom may have been called Avalon to which Arthur was taken by the daughters of the Queen of Septimania when wounded with the promise he would return one day to rule again over the Hebrews in the British Isles.

Fifth Kingdom: (circa 750-1100 AD)

Reestablished by the line of King David associated with Rome or Charlemagne of the Holy Roman Empire. It is not clear how much of the Roman influence was carried to the new world by the Romanized Hebrews of this era. From the records found in Arizona, this kingdom was not strong and had many Native enemies. This kingdom ruled over the lands of the Toltecs and seemed to be a departure of the Hebrew way in embracing Hellenist tradition and polity. In its decline in 1014, this Hebrew people had married among the Native people with this remnant people of the 4th kingdom becoming known as the Anasazi.

Sixth Kingdom: (2014)

Now being reestablished by the lineage of King David in preparation for the coming of Messiah-King Y'Shua. It is the Melkizedek priest-knights who will cause this Hebrew Kingdom to occur in the renewal of an ancient covenant between the Hebrew line of King David and the Hebrew origin of a Native American priesthood.

See book 1, 2015 Alien Invasion for more detail about this renewed covenant that is occurring now. This covenant is a renewal of the 4th Kingdom covenant also referred to in the Ojibwe prophecy of the seven fires identified as the 4th fire.
