

Water in Shilo, Israel: Prophecy

by David Michael, info@glentivar.org

Water Controlled

In the last days, water will be one of the most valuable resources as the earth is severely impacted by war that will cause much of the worlds water supply to become undrinkable.

The lord YHWH has shown me there is a vast water supply under Shilo in Israel that he has preserved for the forces of good to war against the forces of evil in these last days. This water source has not yet been tapped but it is my understanding that its location will be revealed to his prophets when it is needed.

Shilo

Shilo was a Holy City under the rule and protection of Ephraim (aka: tribe of Joseph) where the Ark of the Covenant and the Tabernacle as seen by Moses in heaven and replicated on earth was first located in Israel. It was kept in Shilo for nearly 400 years before the Ark was moved to Jerusalem by King David.

It is still a holy place to the Ephrati as is Jerusalem is to

Judah and to all of the tribes of Israel and the world. These land grants were given to the seed of Jacob as the royal priesthood who was named Israel and to no other claimant.

Real Israelites

The modern Jews living in Palestine today are not the biblical inheritors of this promise as they are largely descended from Esau (Edomites) who intermarried with the Turks known in history as the people of the Khazar Empire who then converted to Judaism as a nation in the 9th century in Eastern Europe.

They are no more genetic Israel than the Palestinians who also claim the land of Israel. The evidence for this comes from astute Jewish researchers but is kept quiet since the modern Jews get so much money from the naive Christian west who believe they are the people of promise.

Return to the Land

The fact is, the bulk of the people of Israel have not yet returned to the land of their forefathers, the olive branch that Y'Shua spoke of in Matthew has not yet blossomed.

The scriptures tell us this Hebrew generation who returns to Israel will not pass until they see the 2nd coming of Messiah. This is now 65 years (2013 - 1948 = 65) into its generation if the 1948 date is correct. The fact is a biblical generation cannot be any more than 50 years no matter how you want to work this out from biblical approaches.

Thus the 1948 date of the promised people returning to Israel and the return of Messiah within that generation would make the prophecy in default and a false prophecy.

Since Y'Shua himself made this prophecy, such a notion would make Jesus a false prophet and untrustworthy in his many other prophecies. We know this cannot be the case so where are the real Israelites hiding?

My research has led me to believe the true genetic Israel is hidden among many nations including the Germans, Celts, Nordics, Native Americans, Northern Italians and elsewhere. These true Israelites will be awakened soon and many will return to the land of Israel given to them by YHWH.
