

Japan Declares War: Dream

by David Michael, info@glentivar.org

In the early morning of the 10th of November 2015, I found myself dreaming I was in a large meeting of the government of Japan. About 50 members were attending this very secret meeting by invitation only. I was in this meeting as the acting prime minister for Japan and was conducting the meeting to decide as a nation if they/we were to go to war with a rival nation or not. The meeting and the dream was very long as each member attending had the chance to express their concerns and their reasons for war. In the end, most all that spoke were in favor of war. I then said, "Japan has proven her capability in stealth in planning and carrying out the greatest secret attack ever achieved by any nation in history." They were silent....I had their attention. I then said, "Of course this was the attack on Pearl Harbor."

The vote was in and the attack was a go. I then awoke.

What is interesting about this dream is the country that Japan would attack was never mentioned in the dream. War is imminent with Japan initiating the initial attack but what is the country they will be attacking? Now awake and musing over this dream, I thought perhaps North Korea. To this I cannot be sure. It could be the United States or China?

We get into this mode of the Communists against the free world. The fact is this is all a well devised illusion. The free world is Fascist or Nationalist and this political model is the reverse side of the coin with Communism being on the other side. Both Fascism and Communism are forms of socialism where a few are positioned to control the many. Both political paths ultimately result in the same end. The control of the masses by a few elite self proclaimed demigods who hold the real power. In our world today, this NWO power is the Banker Illuminati, the Merovingian Royals and the Jesuit Vatican.

Keep an eye on Japan. If Japan is involved in a war, the whole Far East will be involved in a war. This would be in addition to the war centered in Syria and Iran in the Middle East that is quickly being staged. And... yet another war on US soil is planned to also be a part of this final world take over of freedom. All of this must occur close together to be effective.
